The overall objective of the campaign is to raise public awareness on the role and function of the LCDCs and how they contribute to the development of local communities, through actions contained in each of their Local Economic and Community Plans (LECPs).

The new dedicated web page which can be viewed **HERE** is a central hub for information on each of the 33 Local Community Development Committees (LCDCs) and contains information and a series of videos on the following:

·Background of LCDCs
·Watch LCDCs in Action
·Local Economic and Community Plan (LECP)
·Additional Staff Resource (ASR)
·Find your LCDC

“Hop To It” and Help Track Local Frogs

Although well known, the common frog (Rana temporaria) is Ireland’s only native frog species and is listed as vulnerable across Europe. Frogs are considered important biological indicators because their skin is highly sensitive to pollution. Their presence or absence can reveal much about water quality and local environmental conditions. They are protected under both the EU Habitats Directive and the Irish Wildlife Act. Why not participate in the “Hop It” nationwide survey and report your sightings of frog spawn, tadpoles, froglets or adult frogs. These simple records play a crucial role in monitoring frog populations and understanding the health of the environments they depend on.

How to Take Part

If you spot frog spawn, tadpoles, froglets or adult frogs in your garden, local green space or while out walking, you can submit records directly to the IPCC at:

- www.ipcc.ie
- Email bogs@ipcc.ie
- Phone 045 860133

Records can also be submitted to the National Biodiversity Data Centre at https://records.biodiversityireland.ie/start-recording
